

Exerpia EBT: Plumbing Meets Blockchain

Exerpia EBT Whitepaper

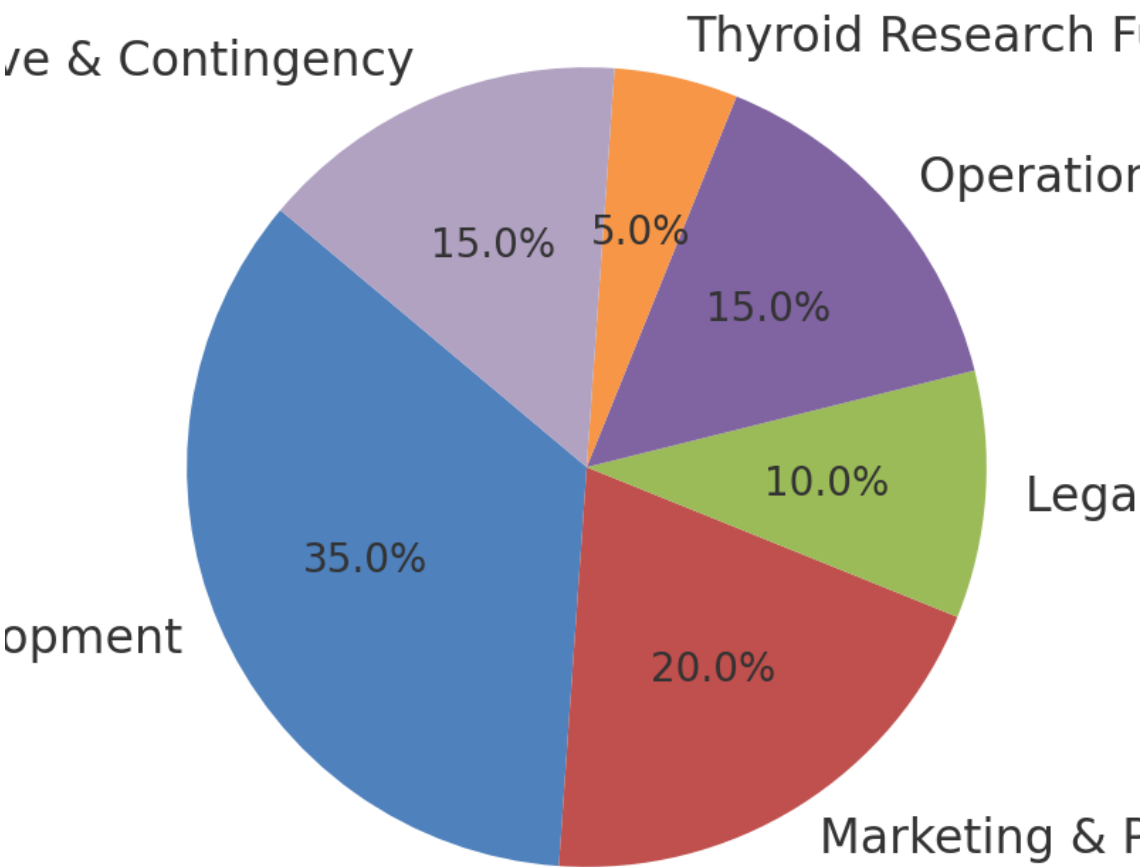

Welcome to Exerpia EBT's official whitepaper - your comprehensive guide to our patented blockchain-powered plumbing technology, ExerPay financial integration, the innovative Thyropop health solution, and our groundbreaking AI module, BUGO.

Exerpia EBT: Plumbing Meets Blockchain

2. Funding Overview

We are launching an Initial Funding Phase to raise \$5 million USD. This investment will drive the development, deployment, and scaling of our technology, as well as health initiatives like Thyropop.

Funding Breakdown

Category	Allocation (%)	Amount (USD)

Exerpia EBT: Plumbing Meets Blockchain

Product Development	35%	\$1,750,000	
Marketing & Partnerships	20%	\$1,000,000	
Legal & Patents	10%	\$500,000	
Operations & Expansion	15%	\$750,000	
Thyroid Research Fund	5%	\$250,000	
Reserve & Contingency	15%	\$750,000	
Total	100%	\$5,000,000

3. Token Utility and Dividends

Investors will receive EBT tokens proportional to their contribution, representing a share in the ecosystem's growth and revenue. Dividends will be distributed quarterly based on system usage and profit. Example: a \$10,000 investor could expect annual dividends based on usage growth, starting at 5% in Year 1 and scaling to 10%+ in Year 3.

4. Business Model and Revenue

Exerpia's revenue streams include:

- Faucet installations and retrofits (B2B and B2C)
- Subscription fees for smart faucet monitoring
- Transaction fees via ExerPay
- Thyropop sales and health partnerships
- Licensing fees for patented technology

Projected annual revenue by Year 3: \$12-15 million USD, with net margins of 25-30%.
